MEMORANDUM FOR: Col. Earl McFarland, Jr., USAF
Chairman, Guided Missile and Astronautics
Intelligence Committee

SUBJECT: GMAIC Sites Study

* 1. Pursuant to your 1 August 1960 memorandum requesting support from the Photographic Intelligence Center, CIA, photo analysis support will be provided by Army, Navy, and CIA photo intelligence officers on a joint basis. PIC will provide the Deployment Working Group with necessary space as required as well as research, laboratory, publication and dissemination support.

2. It is understood that the composition of the final report will reflect a compilation of individual treatments of each nominated site. Under this circumstance, we expect that we will be able to meet the publication deadline inasmuch as separate site reports will be edited and set in final copy form as soon as the working group makes them available. The final report will conform to standard GMAIC format and will bear a GMAIC (GMAF) control number.
